|--|--------------------|
| <b>Master of Computer Applications (MCA)</b> (2023 - 2025)   | CGPA - 7.6         |
| <b>Bachelor of Computer Applications (BCA)</b> (2020 - 2023) | CGPA - 7.9         |
| <b>CBSE   XII</b>  | Percentage - 78.5% |

## INTERNSHIP

**Full Stack Developer Intern** (May 2024 - July 2024)  
**Nullclass Edtech Private Limited**

- Developed and deployed web app using React.js, Node.js, and Express.js, ensuring cross-browser compatibility and performance optimization.
- Collaborated with cross-functional teams in an Agile environment to deliver features and address bugs during sprints.
- Logged API responses and traced issues using browser developer tools and Node.js logs.

## PROJECTS

[\[CODE LINK\]](#) [\[WEB LINK\]](#) **Internspot** - Web application for managing internship listings

ReactJS | Redux | Node.js | Express.js | Mongo DB | Razorpay API

- Developed a responsive user interface using *ReactJS* and *Tailwind* for styling and backend using *Node.js* and *Express.js*.
- Subscription management and payments integration using *Razorpay*.
- User login tracking with detailed device and browser information.
- Google Authentication using *Firebase API*.

[\[CODE LINK\]](#) **Campscape** - Campsite review platform for users to share experiences.

HTML5 | CSS | JavaScript | Node.js | Express.js | EJS | MongoDB | Passport.js |

- Frontend development using *HTML*, *Bootstrap* for creating interactive, intuitive and responsive user interfaces.
- Backend implementation using *Node.js*, *Express.js* for *Geocoding* and to handle *Mapbox API integration*.
- Utilized *MongoDB* as the database to store and manage camps and user information and their reviews.
- User authentication and authorization implemented using *Passport.js*, *JWT*.

[\[CODE LINK\]](#) **Real Estate Website** - Real estate platform for searching, browsing and book properties.

Node.js | Express.js | ReactJS | React Query | MongoDB | Auth0 | Prisma | Cloudinary

- Frontend development using *ReactJS* for creating interactive, intuitive and responsive user interfaces.
- Backend implementation using *Node.js* and *Express.js* to handle API integration and database operations.
- Database management utilized *MongoDB* as the database to store and manage estate and user information.
- User authentication and authorization implemented using *Auth0*, *JWT*
